

## In-line Drippers 20 mm

### Features

- Inlet filter helps prevent particles from entering the drip emitter labyrinth path
- Resistant to chemicals and fertilizers
- Flexible tubing for easy installation
- Three outlets per drip emitter ensure less chance of clogging
- Reduced labor and installation cost
- Allows longer runs

### Application

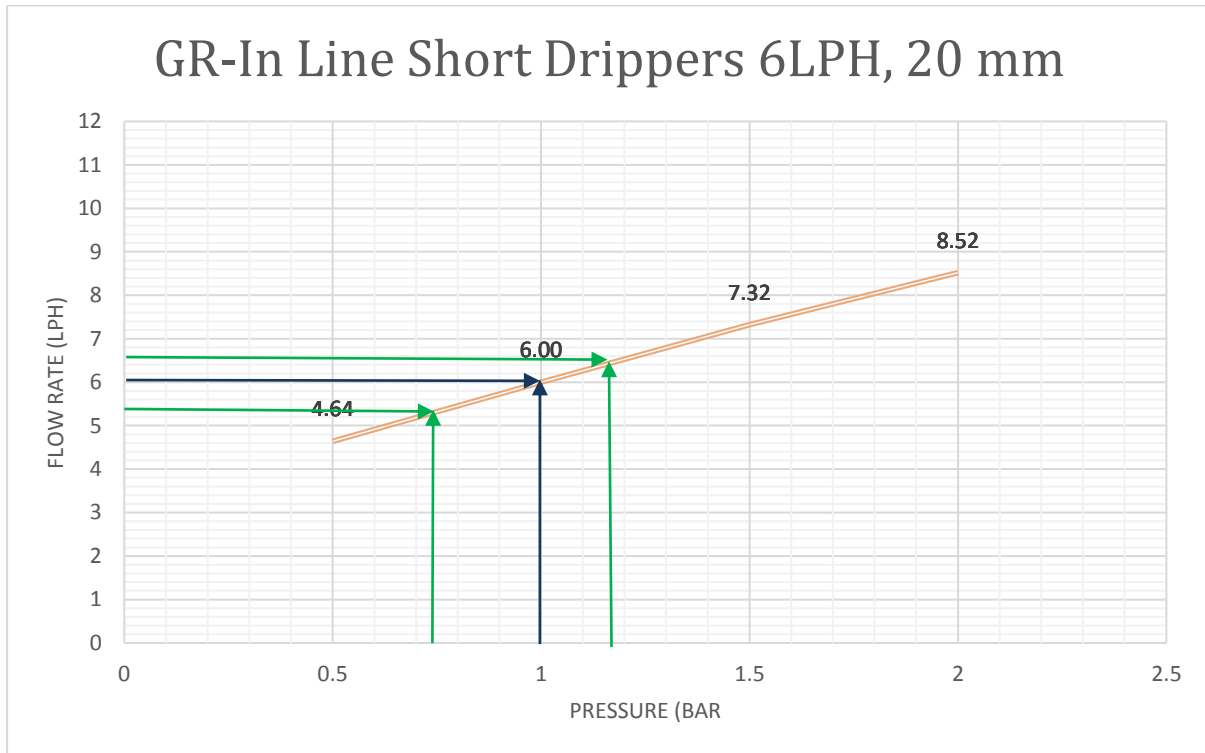

- For greenhouses
- For intensive cultivation for vegetables, vineyards and orchards
- For close spacing crops

$$Q = KH^n$$

## Flow Rate vs. Pressure

### Design Tolerance

Design Tolerance (Bar)	Flow Variation %		
	10%	15%	20%
	0.22		0.42

### Performance Table

Maximum Pressure (Bar)	Recommended Operating Pressure (Bar)	coefficient of variation (CV)	Emitter Constant (K)	Emitter Index (n)	Hazen-Wilams C Factor
3	1	<4.5	6.2	0.43	140
